UNIVERSITY**

At a Glance

The University is situated in a Lush Green Unitary Campus of 67 acres at B.G. Nagara, Nagamangala Tq., Mandya District, Karnataka on the Bangalore - Mangalore National Highway No. 75, 105 Kms from Bangalore, the Capital City of Karnataka.

The University consists of six Constituent colleges in the disciplines of Medicine, Pharmacy, Nursing, Engineering, Management, Commerce and Education. The environment friendly campus has adequate infrastructure and physical facilities for Academics and Research. The campus possesses around 5000 students, 400 teachers and 1800 support staff.

The University employs a broad range of strategies to achieve its Vision, Mission and Objectives to expand the horizon of World Knowledge, provide instruction, Teaching-

Learning, Training, Research and Development at the level of Higher Education in the faculties of Health Sciences, Engineering and Technology, Management and Technology, Humanities & Social Sciences and other Emerging and Thrust areas.

Dear Participants

Nursing is a dynamic and interpersonal problem solving process. Research is a major force in Nursing, and the evidence generated from research is changing practice, education, and health policy. Our aim of organizing this program is to create an excitement explore the areas of conducting research outcomes among nursing faculty, research scholars, post graduates and other nursing professionals.

Objectives

The major objective of this workshop is to sensitize and erudite the participants about the various Research methodologies to be adopted in their research work and further the interpretation of the results obtained from research study.

- Understand some basic concepts of research and its methodologies
- Identify types of researches
- Select and define appropriate research problem addressing ethical issues
- Construct appropriate tools
- Appreciate technique of data collections
- Technique of data analysis
- Write a research report and thesis
